InstaFollowers

# HOW TO MOVE A FACEBOOK PAGE TO ANOTHER ACCOUNT

1. Choose your business page and click the settings.

2. Open the "Page Roles" section on the screen. You can add managers or other positions to your page from this section. You can add roles in this section.

3. Click the "Add person" and type the name of a Facebook user.

4. Enter your password and send a request.

5. When the user confirms the request, accept it.

6. Remove the other admins except for the new admin from the same panel.

7. Now, you know how to move a Facebook page to another account!
